## Education

**Odisha University of Technology and Research (CET Bhubaneswar)**

B.Tech in Computer Science and Engineering | 2021 - 2025 | CGPA: 9.43

## Experience

**Intern @Orive Solutions**

Nov. 2023 - Present

**Full Stack Developer**

*MERN Stack*

- Collaborated on development for user-friendly website containing multiple forms, focusing on seamless integration for them one-by-one.
- Resolved and tested small bugs, enhancing the quality of the web application.
- Contributed to the development of internal-facing endpoints on the frontend to facilitate team/admin operations, resulting in a more user-friendly and efficient system.

**Intern @Suvidha Foundation**

Nov. 2023 - Dec. 2023

**Frontend Developer**

*ReactJS, NextJS, TailwindCSS*

- Optimized frontend performance by implementing custom React hooks resulting in a 40% reduction in page load time and enhanced user experience.

**Freelance @Fydo**

Dec. 2023 - Jan. 2024

**Frontend Developer**

*NextJS, TailwindCSS*

- Contributed to the new website (Greet) for the start-up based company using NextJS and TailwindCSS.

## Projects

**IMS Application**

Feb 2024 - Mar 2024

**Inventory Management System**

*ReactJS, NodeJS, ExpressJS, MongoDB, AWS*

- Engineered a cutting-edge Inventory Management System (IMS) with the MERN stack; integrated MongoDB, Express.js, React.js, and Node.js to optimize inventory tracking. Achieved 40% efficiency boost through user authentication and intuitive interfaces to streamline inventory control processes.
- Implemented api's that is used by an average of 10000 users actively

**HRMS Application**

Dec 2023 - Feb 2024

**Human Resource Management System**

*ReactJS, SpringBoot, SQL, AWS*

- Designed and implemented a user-friendly dashboard in the HRMS application, providing employees and administrators with real-time insights into leave balances, attendance records, and performance metrics. Successfully reduced manual data entry errors by 30% through the integration of automated data validation processes, resulting in improved accuracy of employee records.

**Heart Raiser**

Feb 2023 - Feb 2023

**A Fund Raiser Web App**

*NextJS, NodeJS, ExpressJS, MongoDB, RazorPay, Git*

- An Hackathon project made in the span of 24hrs, led the team to build this full stack application and were selected in top 10.
- Developed a user-friendly and responsive website that enabled users to easily contribute to charitable causes and fundraising campaigns.
- Implemented secure payment gateways to facilitate safe and convenient online donations.

## Leadership and Volunteering

**Class Representative, Computer Science and Engineering Branch**

2021 - Ongoing

- Class representative, fostering communication, organizing events for collaboration and engagement.

## Skills

**Languages:**

C, C++, SQL, JavaScript, Bash

**Technologies & Tools:**

HTML, CSS, Bootstrap/TailwindCSS, ReactJS, NodeJS, Redux, ExpressJS, MongoDB, AWS, DNS, SEO, Figma
